Ultimate Drinking Cards

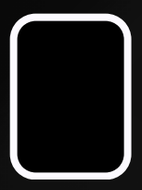

RULES

Ultimate Drinking Cards

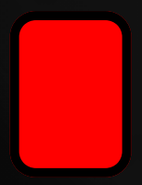

Take it in turns drawing a card.

White Card: Perform the instruction shown on the card.

Black Card: Invert the instruction, then perform the inverted version.

Red Card: perform the instruction, but do it three times!

A note on black (inverted) cards:

Some inverted cards make more/less sense than others.

Don't worry if a card isn't obviously invertible — just try your best, and have fun.
